

Virtual Learning Update 5.13.20

Dixie Families,

As we approach the end of the school year, please allow me to thank all of you once again for all of the support you have given your children and our schools during this period of remote learning. This time has been challenging for everyone and we appreciate our partnership with parents to keep students learning during the 4th quarter.

In normal years, we ask for parent feedback through our Dixie Parent Survey in the spring. This year, we have shortened the survey and tailored it to online learning to help us strengthen online learning processes and improve where necessary. The survey is available near the top of the district website and can also be accessed by following this link.-- <https://bit.ly/3btnvdt>

We have recently started a district Facebook account and we have been featuring our senior award winners. We hope that you will visit us on Facebook--link is available on the district web page.. <https://www.facebook.com/pg/New-Lebanon-Local-Schools-100664461609080>

Lunch service will remain the same through May 26th--ordering on Thursday and Friday with pick up and delivery on Monday., We have also been approved for a program in June that will allow us to continue offering meals for pick up only at Dixie Elementary. We will share ordering details as we get closer to the date.

Due to the order for in-person school to remain closed through June 30th, we will not be offering summer school this year. At Dixie High School, students who need credit recovery classes will be able to participate in online classes over the summer.

Remember, the final due date for all 4th quarter assignments is approaching quickly. Please check in with your child and visit Powerschool to make sure assignments are complete.

Greg Williams
Superintendent, New Lebanon Local Schools
