

## **Virtual Learning News and Resources 4.19.20**

Dixie Families,

We appreciate all of the efforts of Dixie parents to support learning at home. Learning at home would not be possible without teachers and parents working together.

With each week, we learn more about the strengths and limitations of the electronic resources we are using for remote instruction. To help support the efforts of our families, we have included more video resources on our School Closure Resources page that provide tips for using Google Hangouts Meet and Google Classroom. We hope that the videos will help those wanting to learn more about the learning tools.

Please be sure to call the main office of your school if you need technical help or learning support.

Dixie meal service will have meals ready for pick up and will be delivering meals beginning at around 11 am tomorrow. Please remember that all meal pick ups are at Dixie Elementary for the district. Meals for the week of April 27th may be requested starting on Thursday.

Because students are learning at home, all work that has been assigned since March 16th may still be turned in for credit. Again, please be sure to contact your teacher or the school office if there are difficulties with missing assignments.

We hope that everyone has a week of good health and a great week of learning.

Greg Williams  
Superintendent, New Lebanon Local Schools
